

## The most comprehensive configuration management system you can buy

### Key Benefits

- ◆ Comply with SOX and ITIL
- ◆ Control and automate change
- ◆ Improve productivity
- ◆ Reduce the cost of change
- ◆ Prioritize changes
- ◆ Automate processes
- ◆ Increase efficiency
- ◆ Prevent unauthorized change
- ◆ Control risk/impact analysis

...and much, much more

If you're looking for the complete change and configuration management solution, look no further. **AllChange** is the comprehensive change and configuration management software that gives you a total package with no need for expensive 'add-ons'.

**Control your change process** without constraining your way of working from the simplest to the most complex of environments.

**Manage your workflow** from concept to release and dramatically improve your productivity by automating your tasks and releasing your staff for more important roles.

**Immediate information visibility** and impact analysis ensure everybody is working together no matter what their role or responsibility.

**Benefit from our unrivalled level of technical support**, with your own technical consultant, available to answer the most demanding of questions.

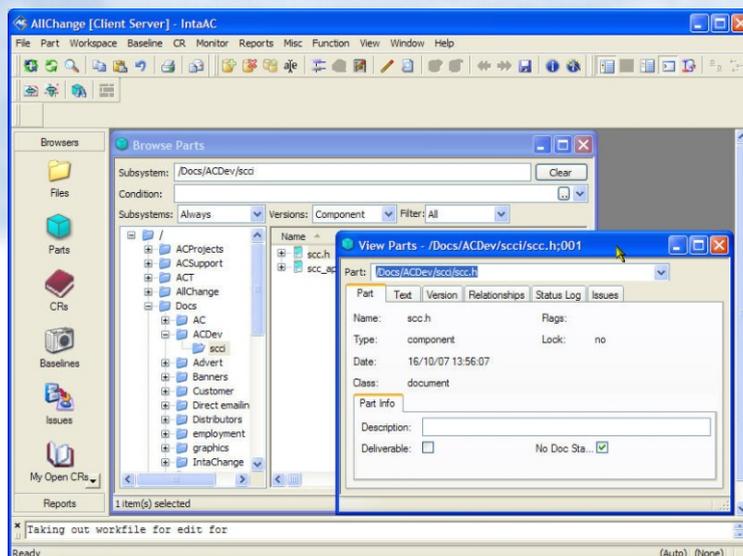

*"I found AllChange intuitive and, equally importantly, it included the flexibility we need to cope with a wide range of projects..."*

Mark Dawson-Butterworth, Zytek Systems Ltd

**Our experienced consultants** deliver customized consultancy packages at your site and are at the end of a phone or email for any on-going questions.

**Training courses** are available for all user levels and can be attended at our in-house training centre or at your location.

With such an impressive range of attributes you might think **AllChange** would be expensive. But with flexible licensing options, FREE Read Only Access and low support overheads, it's actually one of the best value for money configuration management systems you can buy. As leading organizations such as Augusta Westland, DPA and Raytheon will testify.

*Integrate the management of software, hardware, documents and web content, together with the issues, changes release and delivery processes.*

*The AllChange parts browser and viewer give you full hierarchical information on a single screen.*

- ◆ The intuitive user-friendly graphical interface is supported for both Windows and Browser based access.

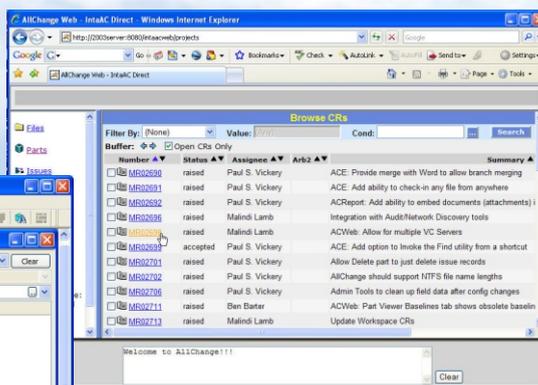

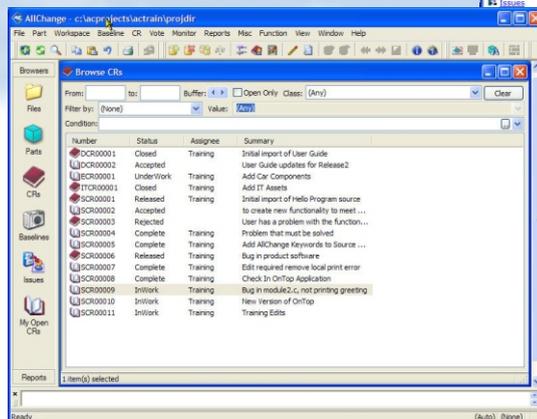

Check files in and out directly from Windows Explorer

**"I find AllChange an invaluable tool for tracking the status and progress of outstanding jobs, the level of detail which can be recorded is excellent..."**

Steve Nightingale

The **AllChange** change viewer lets you view requests for change from a single screen.

Folding views show hierarchical relationships between changes and each change can be opened in a separate window, for detailed information.

**AllChange's** simple web browser option gives your users access from any web based PC
