

# Comprehensive reporting tools for fast access to critical information

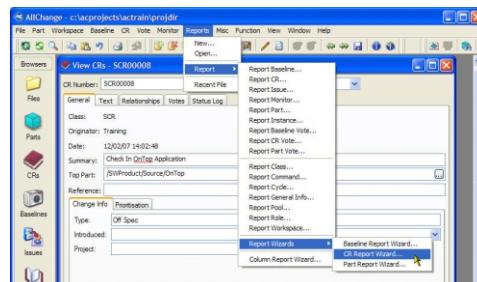

Compliance with regulations such as Sarbanes-Oxley or ITIL, requires organizations to keep detailed, accurate records. **AllChange's** robust reporting tools simplify compliance and provide fast access to accurate information.

## Key Benefits

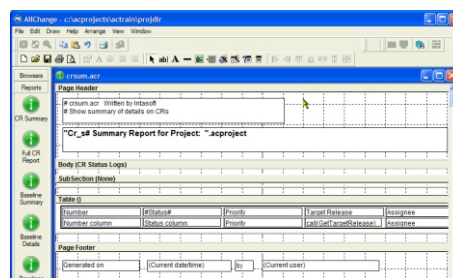

- ◆ Comply with Sarbanes-Oxley
- ◆ Keep accurate records
- ◆ Increase visibility
- ◆ Reduce the cost of change
- ◆ Prioritize changes
- ◆ Automate processes
- ◆ Increase efficiency
- ◆ Prevent unauthorized change
- ◆ Control risk/impact analysis

**AllChange's** reports also increase information visibility, so that costs can be controlled and resources focused on key business areas.

- ◆ Produce real-time reports for auditors
- ◆ Perform trend analysis
- ◆ Keep historical records of all changes
- ◆ Record details of all current changes
- ◆ Use report wizards to simplify fast access to information
- ◆ Output data to Microsoft Excel, Word and Project
- ◆ Generate reports from directly within Microsoft Word
- ◆ Create reports based on browser columns
- ◆ Construct ad-hoc queries in plain English
- ◆ Search using keywords
- ◆ Filter report information by assignee, priority or any number of criteria
- ◆ Customize reports with drag'n'drop report design tool

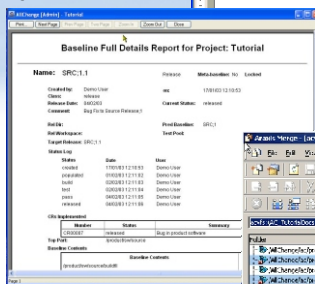

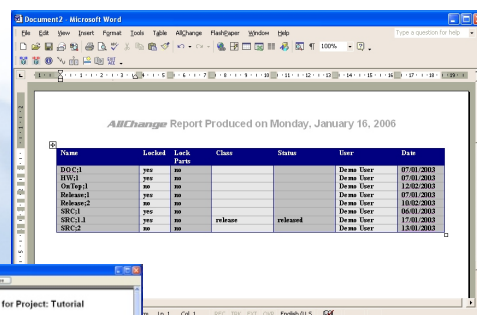

*Give managers and team members critical information, when they need it.*

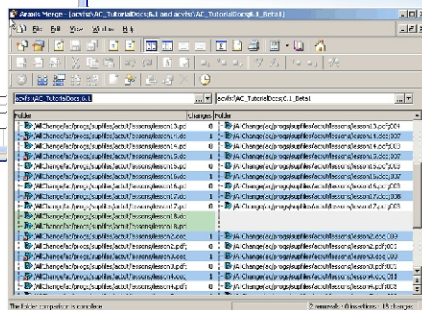

*Customize reports to show exactly what you want.*

*Output to Microsoft Word, Excel or Project.*

*Produce detailed reports on exactly what was released in a baseline.*

*Compare differences between baselines using the integration with Araxis Merge.*

## Seamless integrations improve efficiency and streamline processes

Integrating **AllChange** with your existing systems helps to streamline IT processes and improve communications.

**AllChange** integrates with many popular products including:

### Key Features

- ◆ Integrate with existing systems
- ◆ Export to Microsoft Word/Excel
- ◆ Use within Microsoft Word
- ◆ Use with Windows Explorer
- ◆ Windows and Web versions

### Eclipse

Use AllChange as the Eclipse Team Provider. This allows files to be checked in and out directly from within the Eclipse environment, deletion and moving of files and team synchronisation.

### Araxis Merge

Powerful conflict resolution capabilities are provided in **AllChange**, through the integration with Araxis Merge.

### Dreamweaver

**AllChange** increases your web development productivity by providing an integrated support environment for Dreamweaver, simplifying version control and helping team based development.

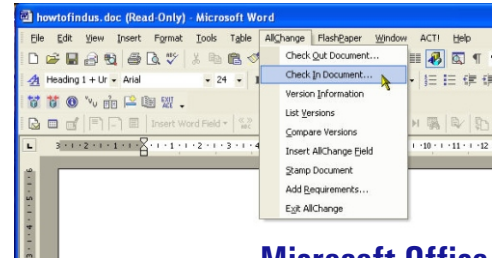

### Development Environments

**AllChange** supports the MCSCCI, providing integration with a wide range of additional environments including: Artisan Real Time Studio, Visual Studio, Visual Basic and Visual Age for Java.

**AllChange** also supports Telelogic Doors, I-Logix Rhapsody and Mercury Interactive TestDirector.

### Borland Delphi

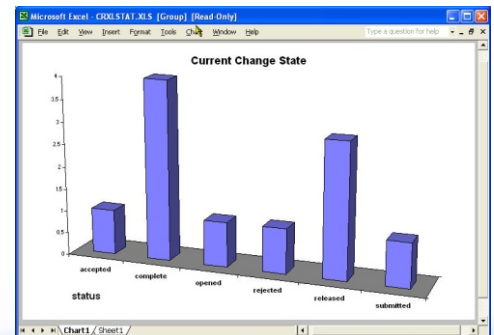

**AllChange** can be fully integrated with Borland's leading development suite through Athlant software from Devrace. Athlant enables the integration of **AllChange** into the Borland Delphi environment, including C++ Builder.

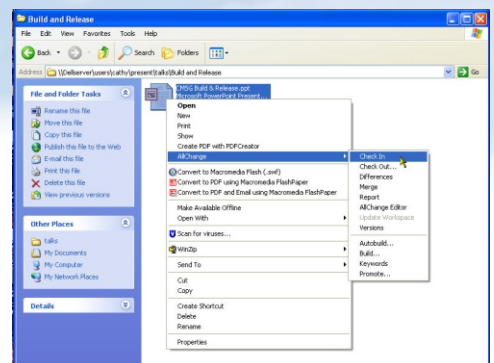

### Microsoft Office

*Configuration Management facilities are available directly from within Word and Excel. Generate reports and check documents in and out.*

*Generate reports in AllChange and export to Word or Excel.*

*Export data to Microsoft Project and allow progress to be monitored. See the situation as it is now, not as it was yesterday.*

### Windows Explorer

*Files can be checked in and out, compared or merged, all from within Explorer.*
